If the world's Political & Economic systems fail then mankind will have to either Nationalize or Dismantle them! Global warming means "War" is a failure of these systems. A flat tax and Universal Basic Income for every human is the only solution. Capitalism & Communism are dying systems.

The Suicide of human civilization is caused by the outmoded concept of economic growth. Wage slaves, war and social inequality are the result of finite resources in the age of global warming.

Capitalism claims to champion Freedom! Communism claims to champion Justice! However war has become a cash flow that pays extremely well for both. Neither sees both are codependent. Freedom & Justice are one. Please stop telling each other how to live!

Political & Commercial propaganda constantly infringes upon human free will by way of fake news!

Trump & Putin will lose. Why? Because wisdom & logic will sustain a long term change of heart in the herd mentality in this age of global warming.

The law should always be used by the warrior for good, and never for evil. Those who use evil for selfish reasons are doomed. It would have been better if their mothers would have never given them birth.

We are competing ourselves into oblivion. This is the fault of religion. Those who shut their eyes to the obvious can never be convinced

Barda the ET told me the USA is planning to secure "Ukrainian Navy Drone Technology" and share it with other nations in the South China Sea. That is a bad omen for Mr. Xi. Also, Putin is "withdrawing" from Crimea to more defensive positions

**6-27-2024**

The militarists of china think they can bully other south sea nations into giving up their rights to mineral resources. Soon they will find themselves confronted by the Chinese Communist Party over their by force strategy. The Chinese Communist Party knows it's survival depends on western trade. Cooperation not conflict is the key. Honest sharing is the way.

The notion of a savior is someone who teaches others about "divine laws"! It is not someone who takes the fall for the sins of others. A savior teaches. But religion says a savior is someone who takes responsibility for the sins of others! Religion say; "go ahead kill, rape and steal. Jesus will take the fall! Your are forgiven. You are washed in the blood of the lamb"! It is manipulation by the clergy pure and simple. Karma is not mocked! Since the birth of Christianity 2000 years ago the clergy have misinterpret and forged texts for selfish purposes. That may be good for the collection plate but it is wrong to control others by way of a belief system.
